# We bridge the gap between ambition and industry leadership.

Our specialised online programs are designed to equip you with the strategic skills needed to dominate the global supply chain landscape. We don't just teach logistics; we cultivate the next generation of global supply chain managers.

## WHAT YOU WILL GAIN

01

### Industry veterans as faculty

Learn directly from professionals with years of real-world freight, warehousing and supply chain experience.

02

### Recognised certification

A high-value diploma certified by a reputable, globally recognised university.

03

### Built for working professionals

100% online classes with flexible timing, so the program fits around your job or your degree.

04

### Master the whole chain

Warehouse management, freight and transportation, and the complexities of global trade.

05

MONTHS, END TO END

07

INDUSTRY MODULES

100%

# Twelve reasons this program ends in a job, not a certificate.

01 Experienced faculties

02 100% online classes for students and working professionals

03 Industry-based syllabus

04 Five-month course

05 International certification

06 Flexible timing

07 Practical workflow training

08 Advice from industry experts in every module

09 SAP MM & Advanced Excel training

10 Career guidance

11 Language & interview training

12 100% placement

## FOUR STAGES, FIVE MONTHS

### MONTH 01-02

#### Learn

Seven core modules, from warehousing to strategy.

### MONTH 03

#### Practice

SAP MM and Excel through live workflows.

### MONTH 04

#### Prepare

Communication and mock interview drills.

### MONTH 05

#### Launch

Career guidance and placement assistance.

# Start your career in global logistics.

Talk to an advisor about eligibility, schedule and fees — five minutes is usually enough to know if the program is right for you.
